

Cognitive Ethnography Coursework

Interview Recording Consent Form

As part of an assignment for a class I am taking, I would like to record an interview with you. I will treat everything you say in confidence, but just to be safe, please do not discuss sensitive topics. I will transcribe the recording of our interview and when the transcription is complete, I will erase the tape. This is completely voluntary and up to you. You may request to stop the taping at any time or to erase any portion of your taped recording. I will then analyze parts of the interview for the class project. I may share parts of it with my professor and fellow students. You will not be identified by name in the write up of the project.

You have read the above description and the student research named above has explained the study to you and answered your questions. You agree to participate in the study.
