

# Lessons from the History of Technology: What Can We Learn from the Past?

PHIL 4310 - Philosophy of Technology

Fall 2014 - Lecture 10

# Hasok Chang on “Complementary Science”

“Complementary science asks scientific questions that are excluded from current specialist science. It begins by re-examining the obvious, by asking why we accept the basic truths of science that have become educated common sense. Because many things are protected from questioning and criticism in specialist science, its demonstrated effectiveness is also unavoidably accompanied by a degree of dogmatism and a narrowness of focus that can actually result in a loss of knowledge.”
